

PRIVACY POLICY
regarding the processing of personal data

GENERAL RULES

PROFIT RIDERS Limited Liability Company, registered in the Republic of Uzbekistan (the “ **Company** ”) confirms that the Company’s personal data are subject to the highest security requirements and maximum confidentiality of data subjects. The company invests resources and takes care of personal data in its daily activities.

The purpose of this Privacy Policy (“ **Policy** ”) is to provide information on how the Company processes the personal data of identifiable Users, which are provided to the Company in cases where Users interact with the Company using available data, communication channels or visiting the Platform.

This Policy applies to all personal data posted or posted using the Platform that the Company receives or may receive from the User.

This Policy is an internal document of the Company and determines the procedure and conditions for the processing of personal data by the Company, including the procedure for transferring personal data to third parties, the features of non-automated processing of personal data, the procedure for accessing personal data, the system for protecting personal data, the procedure for organizing internal control and responsibility for violations processing of personal data, as well as other issues.

1. TERMS AND DEFINITIONS

The terms and definitions used in this Policy may be used in both the singular and the plural, depending on the context, and the terms may be capitalized or lowercase.

1.1. Automated processing of personal data - processing of personal data using computer technology.

1.2. Blocking of personal data is a temporary suspension of the processing of personal data (unless the processing is necessary to clarify personal data).

1.3. Personal data information system - a set of personal data contained in databases, and information technologies and technical means that ensure their processing.

1.4. Use of personal data - actions (operations) with personal data performed for the purpose of making decisions, making transactions or other actions that give rise to legal consequences in relation to Users or otherwise affect their rights and freedoms or the rights and freedoms of other persons.

1.5. Confidentiality of personal data is a mandatory requirement for a person who has gained access to personal data to prevent their distribution without the consent of the User or other legal grounds.

1.6. Manual processing of personal data - processing of personal data contained in the information system of personal data or extracted from such a system in cases where such actions with personal data as the use, clarification, distribution, destruction of personal data in relation to each of the Users are carried out with the direct participation person.

1.7. Depersonalization of personal data - actions as a result of which it is impossible to determine, without the use of additional information, the ownership of personal data by a specific User.

1.8. Processing of personal data - any action (operation) or a set of actions (operations) performed with or without the use of automation tools with personal data, including collection, recording, systematization, accumulation, storage, clarification (updating, changing), extraction, use, transfer (distribution, provision, access), depersonalization, blocking, deletion, destruction of personal data.

1.9. Personal data - any information relating directly or indirectly to a specific or identifiable User of this site. Personal data also means information that the User provides about himself when using the Platform, including information that is automatically transmitted to the Company in the process of using the Platform using the software installed on the User's device, such as IP address, cookie data , information about the User's browser, the technical characteristics of the equipment and software used by the User, the date and

time of access to the Platform, the addresses of the requested pages of the website and other similar information.

1.10. **Platform** - a software package located on the Internet on the website at: <https://profitriders.com>, which is an information service that connects Users to make transactions with cryptocurrency (virtual currency) through specialized exchanges. The platform includes, but is not limited to, a set of graphic and informational materials, as well as computer programs and databases that make them available on the Internet.

1.11. **User** – any visitor to this Platform.

1.12. **Providing personal data** - actions aimed at disclosing personal data to a certain person or a certain circle of persons.

1.13. **Dissemination of personal data** - any actions aimed at disclosing personal data to an indefinite circle of persons (transfer of personal data) or familiarizing with personal data of an unlimited number of persons, including the disclosure of personal data in the media, placement in information and telecommunication networks or providing access to personal data in any other way.

1.14. **Counter** - a part of the Platform (a code fragment, usually in JavaScript), functionally responsible for the analysis of cookies and for collecting personal data about the use of the Platform. The Company may use counters both of its own design and provided by third parties under a limited license (license agreement), for example, Google Analytics, Yandex.Metrika and other similar counters. Counters collect personal data in an anonymized form.

1.15. **Cross-border transfer of personal data** is the transfer of personal data to the territory of a foreign state to an authority of a foreign state, a foreign individual or a foreign legal entity.

1.16. **Destruction of personal data** - any actions as a result of which personal data is irretrievably destroyed with the impossibility of further restoration of the content of personal data in the information system of personal data and (or) material carriers of personal data are destroyed.

1.17. **Cookies/cookies** are a small piece of data sent by a web server and stored on the User's device. Cookies contain small pieces of text and are used to store information about how browsers work. They allow you to store and receive identification information and other information on computers (computers), smartphones, phones and other devices. Other technologies are used for the same purposes, including data stored by browsers or devices, identifiers associated with devices, and other software. All of these technologies are referred to as "cookies" in this policy.

1.18. **IP address** - a number from the numbering resource of a data transmission network built on the basis of the IP protocol (RFC 791), which uniquely identifies a subscriber terminal (computer, smartphone, tablet, other device) when providing telematic communication services, including access to the Internet or means of communication included in the information system and owned by the User.

2. COMPOSITION OF PERSONAL DATA

2.1. The Company, in order to carry out its activities and fulfill its obligations, processes the User's personal data provided by them during registration on the Platform and stored in the User's personal account.

2.2. The personal data of the User, without being limited to the specified, include: last name, first name, patronymic, passport data, postal address, e-mail address, mobile / landline phone number, place of work, position, date of birth, etc.

2.4. The user provides only those personal data that are necessary to provide the selected service, receive newsletters or respond to a special request/claim. At the same time, if the User, at his own discretion, provides the Company with additional personal data, the Company processes them with the necessary level of protection.

2.5. The Company has the right to establish requirements for the composition of Personal Data that must be provided when using the Platform. If certain information is not marked by the Company as mandatory, its provision or disclosure is carried out by the User at his own discretion.

2.6. The user can at any time change, update, supplement or delete the personal data provided by him or part of it using the interface of the Platform.

2.7. In the event that the Company independently reveals the fact of incompleteness or inaccuracy of the User's personal data, the Company takes all possible measures to update personal data and make appropriate corrections.

2.8. If it is impossible to update incomplete or inaccurate personal data of the User, the Company takes measures to delete them.

2.9. If it is revealed that the processing of the User's personal data is unlawful, their processing by the Company is terminated, and personal data is subject to deletion.

2.10. In the event that the interface of the Platform is inoperable or there is no functionality of the Platform to change, update, supplement or delete personal data by the User, as well as in any other cases, the User has the right to demand in writing from the Company the clarification of his personal data, their blocking or destruction if personal data is incomplete, outdated, inaccurate, illegally obtained or not necessary for the stated purpose of processing.

2.11. The Company makes the necessary changes to personal data that are incomplete, inaccurate or out of date within a period not exceeding 7 (seven) days from the date the User provides information confirming that personal data is incomplete, inaccurate or out of date.

2.12. The Company destroys the User's personal data illegally obtained or not necessary for the stated purpose of processing within a period not exceeding 7 (seven) days from the date the User provides information confirming that such personal data is illegally obtained or not necessary for the stated purpose of processing .

2.13. The Company notifies the User of the changes made and the measures taken and takes reasonable measures to notify third parties to whom the personal data of this User was transferred.

3. GROUNDS AND PURPOSE OF PROCESSING AND COLLECTION OF PERSONAL DATA

3.1. The processing of the User's personal data is carried out on the basis of and in pursuance of the User Agreement governing the use of the Platform.

3.2. The processing of the User's personal data can also be carried out on the basis of his separate consent to such processing, expressed directly when using the Platform by clicking on the appropriate button or by ticking the indicator of the corresponding checkbox (tick).

3.3. The Company processes only those personal data that are necessary for the use of the Platform or the execution of agreements and contracts with the User. When processing personal data, the Company does not combine databases containing personal data, the processing of which is carried out for incompatible purposes.

3.4. The purpose of personal data processing is:

- providing the User with access to the Platform;
- implementation of the functions assigned to the Company;
- identification of the User when using the Platform;
- communication with the User, if necessary, including sending offers, information materials, messages, information and requests, advertising, as well as processing the User's requests;
- improving the quality of the Platform, its ease of use, developing new functionality and improving the quality of service;
- provision of services to the User;
- determining the location of the User to ensure security, prevent fraud, provide the User with information services corresponding to his location;
- confirmation of the accuracy and completeness of personal data provided by the User;

- conducting advertising and marketing mailings with information about other services provided by the Company. The Parties agreed to consider this clause as the User's prior consent to receive advertising;
- conducting statistical and other research based on depersonalized data;
- fulfillment by the Company of obligations to the User.

4. BASIC PRINCIPLES FOR PERSONAL DATA PROCESSING

4.1. The processing of personal data by the Company is carried out on the basis of the following principles:

- The legality of the purposes and methods of processing personal data;
- The integrity of the Company as the owner of personal data, which is achieved by fulfilling the requirements regarding the processing of personal data;
- Achievement of specific, predetermined purposes of personal data processing;
- Compliance of the list and volume of processed personal data, as well as the methods of processing personal data with the stated purposes of processing;
- Reliability of personal data, their sufficiency for the purposes of processing, inadmissibility of processing personal data that is excessive in relation to the purposes of processing personal data;
- Ensuring, when processing personal data, the accuracy of personal data, their sufficiency, and, if necessary, their relevance in relation to the purposes of processing personal data;
- The inadmissibility of combining databases containing personal data, the processing of which is carried out for purposes incompatible with each other;
- Storage of personal data in a form that allows to identify the User, no longer than required by the purposes of their processing.

4.2. The processed personal data is subject to destruction or depersonalization upon achievement of the purposes of processing or in case of loss of the need to achieve these purposes, unless otherwise provided in this Policy.

4.3. The processing of personal data for statistical or other research purposes is carried out by the Company subject to the mandatory depersonalization of personal data.

4.4. The Company does not process personal data relating to racial or ethnic origin, political, religious or ideological beliefs, membership in political parties and trade unions, criminal convictions, as well as data relating to health, sexual life and genetic data.

4.5. The Company, having received personal data from the User, does not assume the obligation to inform the User (his representatives), whose personal data is transferred, about the beginning of the processing of personal data, since the obligation to carry out appropriate information is borne by the User who transferred personal data.

5. TERMS OF PROCESSING PERSONAL DATA

5.1. The terms for processing personal data are determined based on the purposes of processing. The Company processes and stores the User's personal data for the period necessary to achieve the purposes of processing and storage.

5.2. Personal data whose processing (storage) period has expired are subject to destruction or depersonalization. The storage of personal data is carried out in a form that allows to identify the User, no longer than required by the purposes of processing personal data, unless a different period of storage of personal data is established by the Policy or the User Agreement.

6. PROCEDURE AND CONDITIONS FOR PROCESSING PERSONAL DATA

6.1. The processing of personal data is carried out in accordance with the requirements of this Policy.

6.2. The Company processes the User's personal data using the personal data information system. Such actions with personal data, such as the use, clarification, distribution, destruction of personal data in relation to the User, are carried out with the direct participation of the Company's specialists.

6.3. With regard to the User's personal data, their confidentiality is maintained, except in cases where the User voluntarily provides information about himself for general access to an unlimited number of persons, as well as in cases provided for in clause 6.4 of the Policy.

6.4. The Company has the right to transfer the User's personal data to third parties in the following cases:

- there is the consent of the User to such actions, expressed in accordance with the User Agreement;
- the transfer is necessary for the User to use certain functionality of the Platform (for example, for authorization through accounts on social networks) or for the execution of a certain agreement, contract or transaction with the User;
- in case of transfer of rights to the Platform, it is necessary to transfer personal data to the acquirer simultaneously with the transfer of all obligations to comply with the terms of this Policy in relation to the personal data received by him;
- if it is necessary to ensure the possibility of protecting the rights and legitimate interests of the Company or third parties, when the User violates this Policy or the User Agreement.

6.5. In case of loss or unauthorized disclosure of personal data, the Company informs the User about this fact.

6.6. The Company takes the necessary organizational and technical measures to protect the User's personal data from unauthorized or accidental access, destruction, modification, blocking, copying, distribution, as well as from other illegal actions of third parties.

6.7. The Company, together with the User, takes all necessary measures to prevent losses or other negative consequences caused by the loss or unauthorized disclosure of the User's personal data.

6.8. When collecting personal data, the Company records, systematizes, accumulates, stores, clarifies (updates, changes), extracts the User's personal data.

6.9. The Company stops processing the User's personal data upon expiration of the User's consent to their processing or upon withdrawal of the User's consent to the processing of his personal data, as well as in case of unlawful processing of personal data or liquidation of the Company.

7. IMPLEMENTATION OF PROTECTION OF PERSONAL DATA

7.1. The Company's activities related to the processing of personal data in information systems are inextricably linked with the protection of the confidentiality of the information received.

7.2. The personal data protection system includes organizational and (or) technical measures determined taking into account current threats to the security of personal data and information technologies used in information systems. The company updates these activities with the advent of new technologies, if necessary.

7.3. The exchange of personal data during their processing in information systems is carried out through communication channels protected by technical means of information protection.

7.4. When processing personal data in information systems, the Company provides:

- taking measures aimed at preventing unauthorized access to personal data and (or) transferring them to persons who do not have the right to access such information;
- timely detection of facts of unauthorized access to personal data ;
- prevention of impact on technical means of automated processing of personal data, as a result of which their functioning may be disrupted;
- the possibility of immediate recovery of personal data modified or destroyed due to unauthorized access to them;

- constant monitoring of the level of protection of personal data.

7.5. With respect to personal information, confidentiality is maintained, except in cases where the technology of the Platform or the settings of the software used by the User provide for an open exchange of information with other Users of the Platform or with any Internet users.

7.6. The company implements the following requirements in the field of personal data:

- requirements for confidentiality of personal data;
- requirements to ensure the implementation of the User's rights;
- requirements to ensure the accuracy of personal data, and, if necessary, relevance in relation to the purposes of processing personal data (with the adoption of measures to delete or clarify incomplete or inaccurate data);
- requirements for the protection of personal data from unauthorized or accidental access to them, destruction, distortion, blocking, copying, provision, distribution of personal data, as well as from other illegal actions in relation to personal data;
- other necessary requirements.

7.7. The Company independently determines the composition and list of measures necessary and sufficient to ensure the fulfillment of obligations in the field of personal data from unauthorized or illegal processing and from unintentional loss, destruction or damage.

7.8. Cookies and other tracking technologies on the Platform may be used in a variety of ways, such as for the operation of the Platform, traffic analysis or advertising purposes, as well as to improve the quality and efficiency of services.

7.9. The user can independently configure the prohibition of cookies and other tracking technologies. At the same time, the functionality of the Platform may be limited, and the User will not be able to use all its advantages, and some pages may not work correctly.

7.10. All specialists of the Company authorized to work with personal data, as well as those involved in the operation and maintenance of the personal data information system, are familiar with the requirements of this Policy, as well as with the internal documents of the Company regulating the procedure for working with personal data.

7.11. The Company organized the process of training specialists in the procedure for using personal data protection tools operated by the Company. Training is provided to persons who have permanent access to personal data, and persons associated with the operation and maintenance of the personal data information system and personal data protection tools.

7.12. The Company has the right to entrust the processing of personal data to a third party with confidentiality and non-disclosure of personal data.

8. HOW PERSONAL DATA IS COLLECTED USING COOKIES AND COUNTERS

8.1. Cookies transferred from the Company to the User's device and from the User to the Company may be used by the Company to achieve the purposes of processing personal data in accordance with this Policy.

8.2. The Company has the right to establish a requirement for the User's device on the mandatory permission to receive and receive cookies.

8.3. The structure of the cookie file, its content and technical parameters are determined by the Company and may change without prior notice to the User.

8.4. The counters placed by the Company on the Platform can be used by the Company to analyze cookies and collect personal data on the use of the Platform in order to improve the quality of the Information Service, the level of convenience of their use, and improve the Information Service. The technical parameters of the counters are determined by the Company and may change without prior notice to the User.

9. CROSS-BORDER TRANSFER OF PERSONAL DATA

9.1. Cross-border transfer of personal data is carried out exclusively within the Company.

9.2. Before the start of cross-border transfer of personal data, the Company is obliged to make sure that the foreign state to whose territory it is planned to transfer personal data provides adequate protection of the rights of personal data subjects.

9.3. Cross-border transfer of personal data on the territory of foreign states that do not meet the above requirements can be carried out only if the subject of personal data agrees to the cross-border transfer of his personal data and / or the execution of an agreement to which the subject of personal data is a party.

9.4. At the same time, please note that the Company is international and the information that the User provided to us on his own or that the Company received from the User as a result of his use of the Platform may be transferred to other jurisdictions.

10. CONSENT TO PROCESSING OF PERSONAL DATA

10.1. When using the Platform, the User, having informed the Platform of his personal data, including through third parties, acknowledges his consent to the processing of his personal data in accordance with this Policy.

10.2. In case of disagreement with the terms of this Policy, the User is obliged to stop using the Platform.

10.3. Consent to the processing of personal data may be withdrawn by the User. In case of withdrawal of the User's consent to the processing of personal data, the Company has the right to continue processing personal data without the consent of the User, if there are necessary grounds.

10.4. The user decides to provide his personal data and agrees to their processing freely, of his own free will and in his own interest.

10.5. Consent to the processing of personal data provided by the User is specific, informed and conscious.

10.6. Consent to the processing of personal data may be withdrawn by the User by sending an appropriate reasoned request.

10.7. The Company checks the accuracy of the personal data provided by the User. In case of providing false and (or) fake data, the Company revokes the User's access to the Platform unilaterally.

10.8. By agreeing to the terms of this Policy, the User confirms that at the time of collecting personal data, he is notified of the persons to whom personal data is transferred, the content and purposes of collecting personal data. The User confirms (guarantees or warrants) that the personal data that is transferred to the Company for processing is transferred with the consent of the personal data owners.

11. FINAL PROVISIONS

11.1. This Policy comes into force from the moment it is posted on the Platform and is valid indefinitely until it is replaced by a new Policy.

11.2. The Company has the right to make changes to this Policy without the consent of the User. All changes made to this Policy come into force from the moment they are posted on the Platform and are an integral part of this Policy. Users are informed about changes to the Policy at least 5 (five) days before they are published. In case of disagreement with the changes in the Policy, the User may stop using the Platform, while the User assumes full responsibility for the consequences of stopping using the Platform.

11.3. This Policy may be changed or terminated by the Company unilaterally. The new version of the Policy comes into force from the moment it is posted on the Platform, unless otherwise provided by the new version of the Policy.

11.4. The beginning of the use of the Platform by the User means his acceptance of the terms of this policy. If the User disagrees with the terms of this policy, the use of the Platform must be immediately terminated.

11.5. This Policy is permanently publicly available on the Platform.

11.6. The User has the right to send all suggestions or questions about this policy to the Company's User support service by sending an electronic message to the email address: info@profitriders.com.

11.7. This policy applies to all personal data processing processes carried out directly using the Platform. The Company does not control and is not responsible for websites owned by third parties, to which the User can access through the links posted on the Platform.
